

Who We Are

The Powell River Therapeutic Riding Association was formed in 1991 to provide Therapeutic Horse Back Riding for children and adults with physical, mental, emotional and learning disabilities.

The goal of our therapeutic program is to relax and stretch tight muscles, to develop strength and endurance in weakened areas; improve posture, balance, coordination, concentration and attention. This all leads to better social skills, communication and confidence which helps the riders to be better prepared for school and to participate more fully in all aspects of daily living.

Our horses are chosen for their gentle nature and calmness.

They have a hard job and must adapt to the many different needs of our riders.

Finding appropriate horses for our program is a challenge so a great deal of care is given to them so they can continue to provide this therapy.
